## Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

## Listing of Claims:

- 1-66. (Cancel).
- 67. (New) A method of treating a staphylococcal infection in a human subject, comprising:
- a) providing a subject comprising a staphylococcal infection, wherein said subject does not harbor a catheter or prosthetic device; and
- b) administering to said subject a recombinantly produced lysostaphin in a dose of 0.16 to 5.0 mg/kg/day.
- 68. (New) The method of Claim 67, wherein said staphylococcal infection does not comprise infection of an organ selected from the group consisting of heart, blood, kidney, lung, bone and meninges.
- (New) The method of Claim 67, comprising administering to said subject a recombinantly produced lysostaphin in a dose of 0.16 to 2.5 mg/kg/day.
- 70. (New) The method of Claim 67, wherein said recombinantly produced lysostaphin is administered via intravenous administration.
- 71. (New) The method of Claim 67, wherein said recombinantly produced lysostaphin is administered via subcutaneous injection.
- 72. (New) The method of Claim 67, wherein said infection comprises greater than 10<sup>5</sup> viable bacterial cells.
- 73. (New) The method of Claim 67, wherein said infection if left untreated possesses the ability to kill un-treated subjects within 48 hours.
- 74. (New) The method of Claim 67, wherein said infection if left untreated possesses the ability to kill un-treated subjects within 24 hours.

Application Serial No.: 09/120,030 Amendment After Board Decision filed on December 28, 2007 Page 3

- 75. (New) The method of Claim 67, wherein said dose is administered in multiple doses.
- 76. (New) The method of Claim 67, further comprising administering an antimicrobial agent selected from the group consisting of rifamycin, a glycopeptides and combinations thereof
- 77. (New) The method of Claim 76, wherein said antimicrobial agent is administered on a day subsequent to administration of said recombinantly produced lysostaphin.
- 78. (New) The method of Claim 67, wherein said method eliminates said infection in said subject.
- 79. (New) A method of treating a staphylococcal infection in a human subject, comprising:
- a) providing a subject comprising a staphylococcal infection, wherein said infection comprises infection of an organ; and
- b) administering to said subject a recombinantly produced lysostaphin in a dose of 5 to 20 mg/kg/day.
- 80. (New) The method of Claim 79, wherein said organ is selected from the group consisting of heart, blood, kidney, lung, bone and meninges.
- 81. (New) The method of Claim 79, wherein said subject harbors a catheter or prosthetic device.
- 82. (New) The method of Claim 79, comprising administering to said subject a recombinantly produced lysostaphin in a dose of 15 mg/kg/day.
- 83. (New) The method of Claim 79, wherein said recombinantly produced lysostaphin is administered via intravenous administration.
- 84. (New) The method of Claim 79, wherein said recombinantly produced lysostaphin is administered via subcutaneous injection.
- 85. (New) The method of Claim 79, wherein said infection comprises greater than  $10^6$  viable bacterial cells.

- 86. (New) The method of Claim 85, wherein said bacterial cells comprise methicillin resistant *Staphylococcus aureus* (MRSA).
- 87. (New) The method of Claim 79, wherein said infection if left untreated possesses the ability to kill un-treated subjects within 48 hours.
- 88. (New) The method of Claim 79, wherein said dose is administered in multiple doses.
- 89. (New) The method of Claim 88, wherein said multiple doses comprise three separate and equal administrations.
- (New) The method of Claim 79, further comprising administering an antimicrobial agent selected from the group consisting of rifamycin, a glycopeptides and combinations thereof.
- (New) The method of Claim 90, wherein said antimicrobial agent is administered on a day subsequent to administration of said recombinantly produced lysostaphin.
- 92. (New) The method of Claim 79, wherein said method sterilizes vegetations within said subject.
- 93. (New) The method of Claim 79, wherein said method eliminates said infection in said subject.
